MEMORANDUM FOR:

FROM:

D C I

25X1

Phone [redacted] and tell him I'm sorry I couldn't get hold of him Monday, but I hope he'll look at my outline on the national/tactical interface. My thought in doing it was to find a logical basis for making individual decisions. I would then hope we could work with OMB quietly and privately to get agreement on what the criteria should be; then do our best to get agreement with OSD on them; then take up the question of how the/individual items proposed by OSD meet the criteria. It seems to me unless we have ^{some} overall agreement on what the rules are we'll lose to non-specific patriotic rhetoric by OSD about the great military imperatives.
